PROFESSIONAL SUMMARY

Full Stack Developer with 1+ years of experience building scalable web applications using **React.js**, **Next.js**, **Node.js**, **Express.js**, **MongoDB**, and **TypeScript**. Experienced in developing **REST APIs**, implementing authentication systems, optimizing application performance, and deploying containerized applications. Hands-on exposure to **AWS**, **Docker**, **CI/CD** pipelines, **AI-powered** applications, and **blockchain** integrations.

CORE SKILLS

Languages:	JavaScript, TypeScript, HTML5, CSS3, Java, Python
Frontend:	React.js, Next.js, Redux, Zustand, TailwindCSS, Material UI, shadcn/ui, Tamagui
Backend:	Node.js, Express.js, Frappe, REST APIs
Databases:	MongoDB, PostgreSQL
DevOps & Cloud:	AWS, Docker, GitHub Actions, CI/CD, Jenkins, Linux
Tools & Others:	Git, Socket.io, Cloudinary, MoonPay

PROFESSIONAL EXPERIENCE

Software Developer, FlyingFox Labs Pvt Ltd June 2025 – Present

- Built an **AI-based passport photo system** achieving **95% compliance accuracy** across 100+ images by developing scalable frontend and backend modules using React.js, Node.js, MongoDB, and REST APIs.
- Reduced onboarding time by **30%** by implementing **Keycloak-based OAuth 2.0** authentication, Single Sign-On (SSO), and role-based access control.
- Integrated **MoonPay** for fiat-to-crypto payments, enabling seamless onboarding and reducing transaction friction by **30%**.
- Accelerated release cycles by containerizing applications with **Docker** and automating deployments through CI/CD pipelines.
- **Tech stack:** React.js, Next.js, TypeScript, Redux, Frappe, MongoDB, Docker, AWS, Node.js, MoonPay.

Software Developer Intern, FlyingFox Labs Pvt Ltd Jan 2025 – Mar 2025

- Integrated **MetaMask** to enable secure Ethereum blockchain transactions for 50+ users.
- Developed a **real-time multiplayer game** with Socket.io, boosting interactivity & engagement.
- Optimized performance with **15% faster page load times**.
- **Tech stack:** Next.js, React.js, Redux, TailwindCSS, shadcn/ui, Material UI, Ether.js.

PROJECTS

Finora – Finance Tracker Web App

- Built a full-stack finance management platform with **JWT authentication**, recurring transactions, budgeting, and analytics dashboards.
- Developed interactive reports and visualizations to track spending trends and financial performance.

Cloud-Native E-Commerce Platform

- Built a scalable **MERN e-commerce** application with product management, authentication, cart functionality, and order processing; implemented CI/CD pipelines with GitHub Actions.
- Containerized services using **Docker** and deployed applications on AWS cloud infrastructure.

EDUCATION

Govt. Engineering College Rajkot, B.E. in Computer Engineering, CGPA: 9.10 Aug 2022 – May 2025
